Hair Treatment Application Guide

Step 1 - Identify the Need: Decide whether the hair requires hydration, nourishment, repair or strengthening before selecting a treatment.

Step 2 - Apply Evenly: Distribute the product through the mid-lengths and ends unless the manufacturer's instructions state otherwise.

Step 3 - Leave for the Recommended Time: Follow the product instructions carefully to achieve the intended benefits.

Step 4 - Rinse Thoroughly: Remove all residue from the hair and scalp using clean water.

Step 5 - Repeat Consistently: Regular use according to the treatment plan will generally provide the best results.

Aftercare: Dry hair carefully and avoid excessive heat exposure to help maintain hair health and minimise damage.
